The postoffice department is to have a new postal card. It is very much like a double card of the present pattern. The back folds are split diagonally and open out like a four pointed star. The four corners are folded and jointed in the center, when the card is ready for mailing, with a piece of gummed paper. The card weighs less than half an ounce and will contain no more writing than the present card, the only advantage being greater privacy.

Buy Now!

Gustave Kohler has just received a fresh and large new stock of Green Coffee, the finest stock ever brought to Napoleon. As the price of coffee is continually increasing, it would be well for our citizens to lay in a supply, from the stock of Mr. Kohler, before the price gets beyond their reach. He has also a new stock of Lamps, which he prides himself upon, for style and price. Come in and see them.

Tony Hahn Dead.

The community was shocked Friday afternoon to learn of the death of Anton Hahn. Mr. Hahn had been sick for some weeks with liver trouble, and Friday morning was feeling unusually bright, but a relapse soon after changed his condition and by 2 o'clock in the afternoon he was dead. He was in the 38th year of his age, a well known and respected citizen, and leaves a young wife and five small children to mourn the loss of an affectionate husband and kind father. His funeral took place on Sabbath, from the Catholic Church, Rev. Father Pitz officiating.

Cleveland's Luck.

With wheat at a dollar a bushel, which seems to be about the prevailing price over the country, the happy farmer will be jolly all the day and have pleasant dreams at night. Wool, instead of dropping to 20 cents and less, as predicted by the Republicans in their desperation to injure President Cleveland; has gone up to 30 cents per pound, showing what an infamous piece of rascality has been practiced upon the farmers of this country. By this transaction, planned and carried out by the Republican monopolies of the East, our farmers were swindled out of several thousand dollars this season. Had our wool-growers been in a position to have held their wool and defied the wool sharks they would have realized more for their clip than they did last year. The prosperity is another instance of Cleveland's luck, and we will further add that when the farmers are satisfied they don't swap horses.

When and Where to Buy.

The best time to buy anything is when you need it, and the best place to buy is where you can get the best quality for the least money. It is not a very good policy to buy a thing because it is cheap or because you can get it on time. In the line of brush goods we know of no better house to which we can recommend you than that of Saur & Balesky's drug store. This house carries a very large and complete line of all kinds of brushes and feather dusters, where you will always find tooth brushes, hair brushes, horse brushes, scrub brushes, acorn brushes, clothes brushes, paint brushes, etc., at just as low a price, and often lower than you can find them at any other house. This firm buys their brushes from first hands at jobbers lowest rates and every brush is warranted, and if one comes to pieces before being worn out, it will be cheerfully replaced by a new one.

Wauseon Examiner.

On last week Tuesday the democracy of Metamora and vicinity advertised a meeting for that place on Saturday evening to be addressed by Hon. J. M. Haag, of Napoleon, and had engaged the only hall in the place. The Republicans to keep their rank and file from attending the Democratic meeting sent a back-woods attorney named Files, whom we believe has a single hanging out in Swanton, to speak to the Republicans. Judge Haag arriving and taking in the situation proposed to the Swanton Blackstone to invite Republicans and Democrats in the hall secured by the latter and to talk on the issues together. Mr. Haag said he would allow Files the opening and closing, and all he asked for was about fifteen minutes in the middle. The proposition was a stunner to Files, and he wigged and squirmed in such a manner as to draw the compassion of even his political opponents and we admit, almost the contempt of men of his own party, who heard the challenge and saw the wiggling of the man who had come to enlighten them on the tariff. But the Swanton attorney, while not highly rated as a lawyer and speaker, had sufficient discretion to refuse to accept the proposition. The Democratic meeting was called to order about 7:30 and when Judge Haag began his speech the Republicans headed by the Richfield band marched in front of the hall yelling, and in this way disturbed him. Finally the Republicans ceased their noise. The hall filled up, many of the audience being Republicans, who listened with interest and conducted themselves in a gentlemanly manner. The Judge gave them an excellent speech and mentioned his fair proposition to Files and how the latter crawled out and showed the white feather.
